

# **BIOWASH FERTILIZER BOOSTER**

**Real Field Results reported by Researchers & Real Farmers**

*"In controlled studies, adding BioWash Fertilizer Booster increased cotton yields by 53%. We documented increased cannabis yields by 63%.*

M. Jensen, Jensen Agri Consultants

*Adding Fertilizer Booster to our organic fertilizers produces 25% to 40% increases in plant growth and yields.*

S. Harkeli, Global Soil Solutions, Inc., USA

*"Boosting our citrus fertilizers with it dramatically helps control citrus greening."*

D. Vendrick, Citrus Specialist, FL

*"Fertilizer Booster energizes fertilizers. The increased growth and yields are clearly visible. My farmers are very pleased."*

A. Cortez, Corvill Agricom, Philippines

*"Adding it to GreenSafe Organics quadrupled our hemp growth."*

T. Reid, Moonshine Nutrients, N.Y

*"Fertilizer Booster increased rice yields from three (3) tons to eleven (11) tons per hectare.*

Agnes Lo, Malaysia

*"Multiple field tests proved that adding to fertilizers produces dramatic yields.*

D. Shukla, Shukla Ashar Impex LTD, India

*"It increased our pasture alfalfa growth by 1,500 pounds per acre."*

J. Wilkerson, Dairy Owner, Oregon

*"Regardless of the fertilizer, adding Fertilizer Booster is essential.*

K. Swab, Soybean Farmer, Illinois

*"It improved my organic bio-stimulant so much; I received a generous buyout offer.*

S. Waechter, Atlantean Inc., Canada

*"Tulip growers appreciate the improved nutrient uptake and dramatic growth."*

R. Havinga, the Netherlands

*"It revived my fruitless fruit trees. There is no longer any question. It works!"*

M. Bohannon, Tropical Fruits. Ft Myers

*"It's amazingly beneficial for papayas and other tropical fruits."*

M. Wallace, Island Botanicals, Bokeelia, FL.

*"It is not your ordinary bio-stimulant. It goes far beyond."*

Dr. Leon Hesser, Partner in "The Green Revolution."

*"Dr. Tidwell's new nanotechnology processes are the greatest new discovery since the beginning of farming. With minimum investment, it produces dramatic yields and profit increases."*

A. Felix, Pres., Organic Farm Supply, Mexico

*"The secret is the plant-friendly nano sized particles stimulating nutrient absorption. It doubles and triples yields."*

Dr. Jones, Organic Fertilizer producer, Florida

For pricing and application details, text Dr. Tidwell, Formulator, 352-895-1300.

**Enriching Farmers Since 2005**

DEMONSTRATION OF  
***BIOWASH FERTILIZER BOOSTER***  
Rapid Nutrient Absorption

Customers call our office expressing amazement about visible growth within days, or in exceptional cases, overnight of applying our solutions.

Roelf Havinga, Organic Supplier, The Netherlands, helped us understand. Roelf was curious regarding the nearly immediate nutrient uptake, growth and increased yields enjoyed by tulip growers who add BioWash Fertilizer Booster to their nutrient programs.

Nutrients are difficult to photograph, so Roelf demonstrated it with red dye. He placed tulip bulbs in a tank of water, added red dye and photographed the before and after results.

This illustrates how Fertilizer Booster so dramatically increases fertilizer efficacy and increased yields. It works with all fertilizers.

BioWash Fertilizer Booster contains no significant nutrients but is comprised of trillions of tiny particles with plant-friendly frequencies that chelate nutrient particles into similar sized particles, attracted to and easily absorbed by hair sized roots.

BioWash Fertilizer Boosters can be added to liquid nutrients before application (only one ounce per five gallons) or to dry fertilizers after applied. For dry fertilizers, dilute booster at the rate of one ounce per five gallons and wet the fertilizer thoroughly.

Some growers have observed then opined that Fertilizer Booster also increases moisture, nitrogen & oxygen absorption. It works for all plants.

***Documented: Carcinogenic, Genotoxicity & Mutagenic Free***  
***It injects no toxins into the food supply***

***Fertilizer Booster is not a cost. It's an essential investment.***

**Why The Difference?**

## **Electron Microscope Photograph**

**1<sup>st</sup> EnviroSafety's proprietary processing technology of plant-sourced ingredients  
Produces trillions of energized nano sized particles.**

**Average particle size: 2.6 nanos**

**Comparison: A human hair, measured diagonally, measures approximately 75,000 nanos.  
Such tiny particles easily penetrate and chelate targeted matter, enhancing cation exchange,  
yet have been clinically documented as Mutagenic and Genotoxicity free.**

**I.E., non-carcinogenic**

**and**

**“Harmless to human and animal cellular structures.”**

# *BioWash* FERTILIZER BOOSTER

## Benefits

Enhances nutrient, moisture and oxygen absorption resulting in vigorous growth and yields.

## Ingredients

Billions of nano sized particles processed from extracts of coconut, corn, grass, rice, soy, tree sap, and water.

## Safety

Ingredients clinically documented as Mutagen & Genotoxicity Free. Injects no cancer-causing chemicals into food supply.

## Versatile

Can be combined with, and enhance the efficacy of liquid nutrients, insecticides and pesticides.

## Dilutions & Applications

### Liquid Nutrients

**Home Gardens:** Add 1 ounce concentrate per 4 gallons of liquid nutrients.

**Farms & Manufacturers:** Add 1 gallon per 500 gallons of untreated fertilizers.

**Fungicides, Insecticides, Miticides:** Add 1 ounce per 5 gallons.

### Dry Fertilizers

**Home Gardens:** Dilute 1 ounce per 5 gallons of water and wet thoroughly.

**Large Farms:** Dilution: 1 Gallon per 500 gallons. Wet well.
